

D-338

The most flexible 9-leg pallet,
part of the Jeco Sheet-Fed Collection

Jeco's D-338 is a ribbed deck, 9-leg pallet for use in Heidelberg XL 162 and Heidelberg die cutters.

Designed to the specifications of the XL 145, and tested on Krifft & Zipsner logistic systems, pallet turners and pallet magazines. Solid, medium-density polyethylene plastic.

The ribbed deck increases slip resistance and airflow during transport. Nine legs provide balanced stability for heavy-duty handling.

Steel reinforcements add strength. Four-way forklift entry. Ask about additional color options.

- 100% virgin MDPE-resin – no regrind material
- Hygienic
- Virtually indestructible
- Dimensionally precise
- Antistatic additive optional
- Available in a variety of colors
